Feed inlet	1960 x 1460 mm
Weight	6500 kg
Capacity	10-20 ton/h

The Titan series Twin Shredder is the ideal combination machine for processing both frozen and fresh raw material. It crushes and grinds the material in one step. The perfect machine for a medium sized feed kitchen.

Advantages:

- One machine does all the work
- Low build-in dimension
- Less washing
- Good economy
